

e/Forms-Financial software was developed exclusively for the financial industry to provide a more efficient way of completing forms. It contains a selection of over 650 industry standard forms including CCRA forms that look and feel exactly as the original printed forms with links to popular client and contact management software.

Features:

- Forms are updated regularly.
 - Simple to use and easy to install
 - Reduces errors and rejection rate at back-office
 - All forms can be printed, faxed or emailed directly to a client
 - User information such as dealer and rep codes are imported onto forms
 - All fields and check boxes on the forms are active and can be filled using a computer
 - Client information is instantly filled into the fields on the preselected form from contact management software
 - Forms will be served from our secure servers so there will be no increase in traffic volume on your website.
 - Your dealer forms can be integrated into your version of Free e/Forms (at extra cost)
 - Reduce manpower cost for uploading and maintaining your forms to your website.
- Simply e-mail the pdf of the new form to ScanTech and we will take care of the rest
- Professional looking documents
 - Reduces office paper and paper work
 - Reduces the amount of time completing forms
